SUMMARY

MCA student skilled in Java, Python, Spring Boot, MySQL, and modern web/AI technologies including LangChain and RAG. Built full-stack applications ranging from a production-style e-commerce platform to a multi-agent document Q&A system. Seeking Software Developer and AI Engineering opportunities.

EDUCATION

Master of Computer Application Francis Xavier Engineering College, Tirunelveli	2026 - 2028
B.S. in Computer Science The MDT Hindu College, Tirunelveli	2023 - 2026

SKILLS

Languages	Java, Python, JavaScript, SQL
AI/LLM Technologies	LangChain, LangGraph, RAG, ChromaDB, Groq API
Web & Backend	React, HTML5, CSS3, SpringBoot, FastAPI, REST APIs
Database & Tools	MySQL, SQL, Git, GitHub

PROJECTS

Full-Stack E-Commerce Platform React, Java, Spring Boot, MySQL	MAR 2026
- Developed a responsive e-commerce web application featuring user authentication, product catalog, cart management, and order processing. - Built a secure RESTful API backend using Spring Boot and Spring Security, efficiently persisting data with Spring Data JPA. - Designed a dynamic React frontend utilizing Context API for state management and Axios for seamless client-server communication.	
RAG Document Q&A System Python, FastAPI, LangChain, LangGraph, Groq API	MAY 2026
- Designed and implemented a collaborative state-machine graph using LangGraph, dividing responsibilities between a Researcher Agent and a Writer Agent for structured multi-step QA. - Built a low-latency token-by-token streaming API using FastAPI Server-Sent Events (SSE) and the browser Web Streams API, improving perceived response performance. - Programmed client-side chat log export tools enabling users to download styled Markdown files and structured multi-page PDFs using jsPDF.	

CERTIFICATIONS

- Java Certified - Wintech Computer Education
- Foundation of Coding with Python - Infosys Springboard
- JavaScript Certified - GeeksforGeeks
- SQL & Relational Databases - IBM Developer Skills Network
